OSR Medical Sleep Disorder Diagnostic Centre in Montreal Receives Program Accreditation

WESTCHESTER, Ill. – OSR Medical Sleep Disorder Diagnostic Centre in Montreal recently received program accreditation from the American Academy of Sleep Medicine (AASM).

“The AASM congratulates OSR Medical Sleep Disorder Diagnostic Centre on fulfilling the high standards required for receiving program accreditation,” said Alejandro Chediak, MD, AASM president. “The facility is a significant resource to the local medical community and will provide academic and scientific value in addition to the highest quality care for patients suffering from sleep disorders.”

To receive a five-year accreditation, a sleep center must meet or exceed all standards for professional health care as designated by the AASM. The accreditation process involves detailed inspection of a center’s facility and staff, including an evaluation of testing procedures, patient contacts, and physician training. Additionally, the facility’s goals must be clearly stated and include plans for positively affecting the quality of medical care in the community it serves.

OSR Medical Sleep Disorder Diagnostic Centre is directed by Marcel Baltzan, MD and is located in Montreal, Quebec, Canada at 1361 Avenue Beaumont, Suite 202. For more information, call (514)766-6345 or visit www.osrmedical.com

AASM is a professional medical society for clinicians, researchers, and other health care providers in the field of sleep medicine. As the national accrediting body for sleep disorders centers and labs, the AASM is dedicated to setting standards and promoting excellence in sleep medicine health care, education and research.
